

Weld.Doc

Key Features

Automation: Automatically calculates ranges of approval based on welding standards.

Notifications: Sends alerts for expiring welder qualifications (continuity).

Compliance: Ensures documents align with latest code rules (ASME IX, ISO 9606, AWS D1.1).

Traceability: Stores full welder history, including processes, material groups, and NDT results.

Digitalization: Replaces paperwork with digital signing and QR code validation.

Qualification Plan (2 pages Doc)	Welder Certificate (1 page Doc)	DT & NDT Reports (5 pages Doc-Reports)	Supporting MTC (Base, Filler & Gas) (4 pages Doc)
Tracking on Expiry (Manual Filtering in Excel) for 6 months, 2 years & 4 years	Validation Records (1 pages Doc)	DT & NDT Reports of with Validation Records in 4 years of welder Tenure (10 Reports)	Welder Master List (1 pages Doc)

Cost to Company

Documentation Cost
for 20welders in a
month.

a) Min 32 hrs. spent
/month- 6500/-

b) 40-50 Pg/month
(color prints & B/W
Prints)- 500/-

7000/- INR / Month

What is Required ?

ASME IX, ISO 9606, AWS D1.1 Templates

Way Forward

- WPS & PQR Creation

Weld.
Procedure

Weld Map

- Upload the PDF Drawing to Map the Joints & WPS
- No Requirements of Auto CADD

- In process Data Capturing with Smart way
- For Identification & Traceability
- Smart Validation of Produced welds

Weld Log
